Picking your way through the rubble, you struggle to keep up with the boy, who seems to know his way through the dark by instinct.

The night is suddenly invaded by a searing bright green light.

"They're here!" the boy cries.

The light fades, leaving three creatures in its place. They look like tangles of vines, barely distinguishable from the overgrown ruins, but they move like humans, or predators on the hunt. As they walk through the rubble, tendrils unravel from their arms, uncovering debris and tossing it aside like pebbles. As they move towards you, you sense a darkness growing that might blot out the very light of the stars.

"Don't think about them. Follow me and do everything that I say," the boy hisses.

- This is fascinating. Hide, watch, and analyze these creatures.
- If I can trap one of these creatures, I can make a fortune.
- Follow the boy's instructions as closely as I can.

1 1 Abandoned. Abandoned to live on the streets as a child, you grow up tough. You have abandonment issues that hampers your ability to develop close relationships. When alone, you find it uncomfortable and try to seek out company if possible. (Optional: When alone, you begin to panic and must succeed on a DC 10 Wisdom save or become frightened.)

2 2 Alleychild. The narrow alleys and gutters were your childhood playground and home. Wide open spaces are panic-inducers and make you uncomfortable.

**Dwarven Optional Racial Traits**

Dwarven characters that start in or near the Blight may not exhibit the same traits that are traditionally associated with dwarves (as presented in the game manual). Some of the new traits may fit a specific trait that it is intended to replace, while others do not. For those that do qualify which trait it would replace you should work with your GM to determine the best fit for the game.

The following racial traits may be selected instead of the standard dwarven racial traits:

- Slime Builder
- Slime Enemy
- City Sloop

In a city of social drags, the coprophagi (or roachfolk as they are more commonly known) are truly the scumdogs from the bottom of the barrel. Stunned by all, the roachfolk live almost solely within the City State of Cathrago, maintaining their movements and habitats to areas where others wouldn't care to look or to the stonking darkness of night that hides them from the eyes who might take umbrage at their very existence.

It is thought that roachfolk originally must have hatched from detritus or some other vile place because no records speak of their existence before the rise of the city-state, and there are largely unknown characters on
